

First Year Long term Plan

This document is here for reference and support, it shows how the schools key question themes can link to different topics across the primary school curriculum for our first year of learning. As the learning is child led, the topics within this may or may not be used. Sometimes adults may start a provocation based on one of the below topics, to ensure we are still covering the requirements, however sometimes this may be a child starting a provocation through a question or statement.

As it is important to ensure we are still following the National Curriculum, the substantive and disciplinary knowledge and skills document above alongside our assessment system will ensure the children are still meeting the requirements of the curriculum.
